

Maintain the balance of your work life & personal life

Give us three minutes and let Intulse help you protect your first ministry at home

The demands on a pastor's time and attention never end. Our system makes it easy for you to turn off your work phone, protecting your first ministry, your family. Intulse understands that ministry is a marathon, not a sprint and we are committed to ensuring the long-term health of your pastoral team. We want to help you leverage technology to be fully present wherever you need to be at the moment.

Give out your church phone number instead of your personal cell number. That personal information should be reserved for family and close friends. By doing that you can easily set your work phone to do not disturb when you go home for the day. If you need to make a late night call, you can do it from your church number directly from the app on your cell phone. When you go on vacation, seamlessly forward your work phone to another pastor on call without worrying about church calls coming to your personal cell phone. Every call and text message can be logged and automatically recorded in your church management system. At Intulse, we're not just protecting your time, we're protecting you and helping to keep you above reproach.

Using the Intulse App will feel as familiar as using your cell phone. When the app is enabled, calls will appear just like those coming to your cell phone. Placing an outgoing call is as simple as typing a contact's name into the search field.

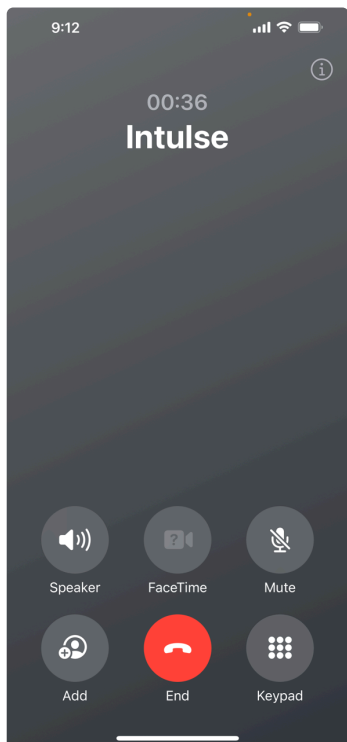

Scan our QR code to get the app installed on your device!

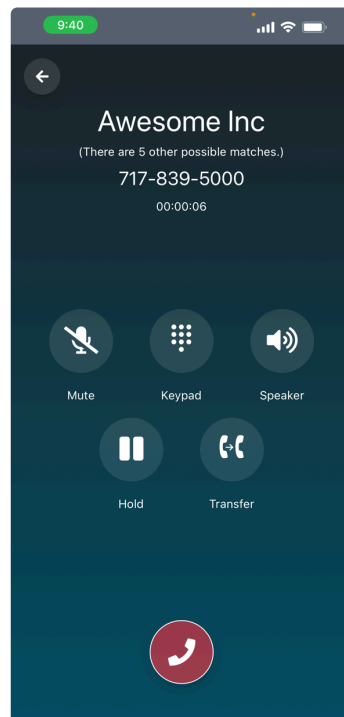

We've already done all the work for you

With the Intulse phone system, you have the ability to utilize both a desk phone and a softphone via the Intulse App. If you can use a cell phone, you can use the Intulse App. Your cell phone will still function the same way it always has and the app will function as your work phone. It will ring just like your cell phone but keep your cell phone separate.

Click on any phone number in your ChMS (e.g. RockRMS, ChurchStaq, MinistryPlatform, etc.) or on any browser window to easily initiate a call when you have our Intulse Companion App installed.

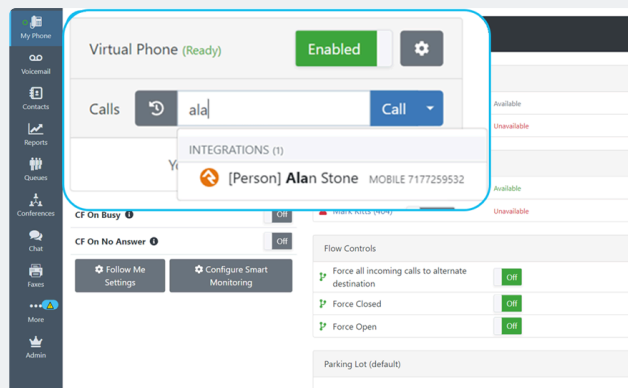

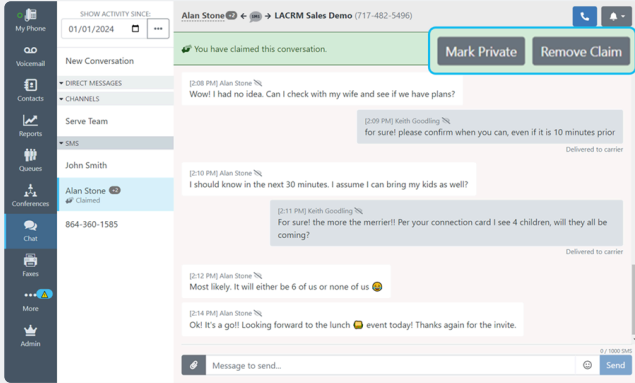

View of a call on your cell phone

View of a call on the Intulse App

- Easily enable or disable the virtual phone to control the flow of calls coming into your device.
- Quickly locate contacts by simply typing their name in the search bar.
- Caller ID will show the church name and phone number, not your personal contact information.

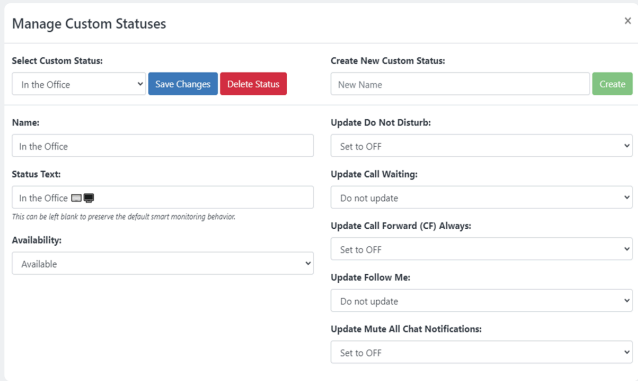

Chat messages can also be sent through your Intulse App. These messages are also logged both within Rock and in our app. These conversations are visible to everyone by default, but can be claimed and marked as private so only you are able to see it and engage in the conversation.

Each status can have individualized settings including whether you are available or busy, Do Not Disturb and Call Waiting settings, and whether chat conversations are muted.

Custom statuses can automate your settings and communicate your availability to your team. Selecting a status can automatically silence your phone during a meeting and then easily reactivate it afterward.

With the Intulse phone solution you have all the convenience of a cell phone, but we can keep you completely protected. Call logs and recordings allow you to be above reproach, while you still have the ability to manage what others are able to view, maintaining confidentiality boundaries.

You're in Good Hands with Intulse!

At Intulse, we are a technology company that prioritizes ministry first. Our team understands ministry and has a heart to serve the church. Our core values begin with honoring God and loving His people, both in our personal lives and in the way we interact with our clients. Several of our team members have experience as pastors, Christian school teachers, and worship leaders.

Members of our leadership team have also worked in software development specifically geared towards churches for many years. We strive to understand ministry specific needs and care deeply about the work you are doing. We are eager to serve you so that your ministry can serve the community.
